

College of Fine Arts

The Florida State University College of Fine Arts is a place where learning and creativity are nurtured through instruction, research and practice. A close-knit community of faculty, students and professionals, the college functions as an arts conservatory within a major university—serving as a home to a unique combination of visual and performing arts studios, classrooms, performance spaces and museums. Because of this, our students are some of tomorrow’s most promising artists, researchers and professionals in their fields.

The college offers degree programs, many ranked among the most respected in the nation, and houses several non-academic units. Additionally, the college boasts specialized programs that leverage relationships between departments and museums to enrich the degree-based curriculum.

YOUR SUPPORT PROVIDES

- ◆ Student scholarships
