The Impact of Private Support

- The College of Education offers more scholarships than any other college on campus. Approximately 89 percent of the college’s undergraduate students rely on financial aid to cover the cost of their tuition.
- Private gifts provide scholarships for deserving students that enable the College to attract the best and brightest individuals.
- Private support helps purchase hardware and software upgrades for computer labs, supplements scholarships and supports conference registrations for students and faculty.
- Contributions support new initiatives in teacher education, educational leadership, policy studies, sport management, educational psychology and learning systems.
- Gifts allow the College to recruit and retain highly sought after faculty.
- Private contributions prepare students and faculty for the global economy through international experiences and study abroad opportunities.
- In 2013, more than 75 graduate students and faculty members received travel awards to present at national and international conferences.
- Private support allows the College to host nationally and internationally renowned speakers on topics relevant to education students.

The College was ranked No. 39 in U.S. News and World Report's 2014 "Best Grad Schools" rankings.

Education majors have a unique opportunity to complete their internships in London, England, or Valencia, Spain, through FSU International Programs. Students practice their skills with Florida Department of Education-trained host teachers and enjoy cultural activities and travel while studying abroad.

Recently renovated and refurnished as part of the Stone Building expansion project, the Learning Resource Center serves FSU students, faculty and staff by providing technological support services, lab and classroom facilities, and multimedia equipment.

Launched in 2007, FSU-Teach is an innovative program that prepares students seeking to teach mathematics, science and education to graduate with two majors in four years. The program also provides post-graduation support for these young teachers that helps schools retain math and science educators.

The Florida State University College of Education iPhone app is available to keep alumni and supporters up to date. Search "FSUCOE" in the App Store.

Florida State University Schools is a developmental research school in Tallahassee. The 1,700-student, K–12 school is operated under a charter agreement by FSU and provides a venue for educational research, curriculum innovation, educator development and statewide reform efforts.

The College offers a quality alternative to traditional, face-to-face classroom courses with four graduate degrees offered completely online.

The College’s Office of Information and Instructional Technologies is building a technology “sandbox” where faculty and students can “play” with the latest technology, such as LiveScribe SmartPens, SMART Tables and SMART Boards.
